6015 Summer School

The school district may conduct a summer school program to provide additional educational opportunities for students who need remedial instruction and/or to enrich students' educational experiences. Students who successfully complete classes offered through the district's summer school program will earn credit toward high school graduation. Students will be allowed to substitute a summer school grade for a failing grade earned during the regular school year. Students who take summer school courses to replace a passing grade may use the summer school course to advance their class rank.

6003 Instructional Program

- 1. The minimum number of instructional hours in the school year will be 1082 for middle school and high school students, 1032 for elementary students, and 1032 for kindergarten students, exclusive of lunchtime.
- 2. The district may establish special programs for individual students that may deviate from these requirements. All special programs must either be adopted pursuant to applicable law or approved by the superintendent in advance. Prior to the district's commencement of a specialized program, the district will provide the student's parents or guardians with notice of the program.
- 3. The board, acting with the advice of the administration and certificated staff, will adopt a curriculum and procure textbooks and materials to support that curriculum. The administration and certificated staff will design instructional strategies and assessments to implement the curriculum.
- 4. To the extent possible, practice for, travel to, and participation in activities sponsored by the Nebraska School Activities Association and the Nebraska Department of Education will be scheduled outside of instructional time. Individual student absences because of illness or family-centered activities will be governed by district attendance policies.
- 5. The board intends to strike a sensible balance between the time spent on academics and time spent on extra-curricular activities, acknowledging that both work and play are important in each student's total development and education.

6004 Curriculum Development

The board of education jealously guards its right, prerogative, and discretion to exercise local control of the curriculum development of the district to the greatest extent permitted by state and federal law, and has no intention of ceding such right, prerogative, or discretion.

The superintendent or his/her designee shall be responsible for providing and directing system-wide planning for curriculum, instruction, assessment and staff development.

The curriculum shall be standards-driven and accountability-based. The district's academic content standards shall be those required by the Nebraska State Board of Education in the subject areas of reading and writing (language arts), mathematics, and science only. The curriculum shall be articulated to include all programs and grade levels offered within the district, K-12 and, if applicable, shall include a preschool program. The curriculum shall reflect the comprehensive plan of the school district. All professional staff members are responsible for implementing the curriculum.

The superintendent or his/her designee will present this curriculum to the board for approval or modification.

The superintendent shall be responsible for establishing curriculum guides to articulate and coordinate the written curriculum, and to provide consistency of the written curriculum from one level of the district to the next. Curriculum guides shall provide for the development of the school district's curriculum and shall set academic standards, identify essential educational outcome criteria, and provide for the implementation, monitoring and evaluation of student learning.

Teachers are responsible for following the curriculum guides and teaching the written curriculum. Principals are responsible for monitoring the curriculum and evaluating teachers to ensure that they are teaching in compliance with the curriculum guides and written curriculum. The superintendent and his/her designee shall ensure that principals monitor the curriculum and evaluate teachers.

Curriculum and Textbook Adoption Schedule

The District will review curriculum and adopt associated textbooks on the following schedule.

6008 Class Rank

Student class rank shall be determined by using a numeric grade point average derived from all classes graded on a numeric basis. To be included in the class ranking, a student must have received a numeric grade for each core curriculum class in which he/she was enrolled. For the purposes of this policy, core curriculum shall include all courses in the areas of language arts, mathematics, science, and social studies.

Students who transfer into the school district will be eligible to be included in class ranking after two semesters of attendance.

Students who transfer into the school district in middle of their senior year will be eligible to be included in class ranking, although a mid-year transfer will not displace the ranking of a student who has not transferred mid-year. In those circumstances there will be two students holding the relevant class ranking. Mid-year transfer students will not be eligible to receive senior awards such as valedictorian and salutatorian unless the student has been enrolled in the district's high school for the last two semesters.

Grade Placement and Academic Credits of Transfer Students

Subject to a determination on grade placement based on the criteria set forth below, a student transferring from an accredited school generally will be placed at the grade level that is comparable to the placement in the school from which the student is transferring. Temporary placement may be made until a student's records are received to verify the placement.

Elementary Level Students

The appropriate level of placement for elementary level students may be determined by, but not limited to, consideration of the following information:

- Chronological age
- Previous public school or private school experience
- Diagnostic test data
- Achievement test data
- Criterion-referenced test data

Secondary Level Students

The appropriate level of placement for secondary students may be determined by, but not limited to, consideration of the following information:

- Chronological age
- Previous public school or private school experience and transcript
- Standardized achievement test data
- Criterion-referenced test data
- Final examination test data
- Diagnostic test data

The district will accept credits toward graduation that were awarded by an accredited school district and which, in the professional judgment of the administrative team, are sufficiently rigorous and comparable to the district's offered courses of study. A student transferring into the school district in grades 9-12 will be responsible for meeting all graduation requirement in order to be awarded a diploma from the district.

Students who transfer from an exempt (home) school and/or a non-accredited school may be awarded credits to be counted toward high school graduation requirements at the discretion of the building principal in consultation with the superintendent of schools. The principal will consider all of the factors listed above and will also consider the student's performance on the district's internal benchmark tests.

6012 Flag Display and Patriotic Observances

The district shall display the flags of the United States of America and the State of Nebraska prominently on the grounds of every school building each day that school is in session.

Each building principal shall be responsible for the care and display of the flags at his/her assigned building, and shall adhere to the rules and customs pertaining to the use and display of the flags as set forth in the United States Code.

Each day, at the time designated by the building administrator, staff shall ensure that students in grades K-12 will be led in the recitation of the Pledge of Allegiance in the presence of the flag of the United States of America Pupil participation in the recitation of pledge shall be voluntary. Pupils who elect not to participate shall sit or stand silently and must respect the rights of those students choosing to participate.

6013 Teaching Controversial Issues

The ability to discuss, listen, and dissent are essential elements of responsible citizenship. The school district encourages students to develop skills in analyzing issues, respecting the opinion of others, distinguishing between fact and opinion, considering all pertinent factors in reaching decisions, and arriving at group decisions.

Teachers may teach or lead discussions about controversial issues if they comply with the criteria contained in this policy. Controversial issues may be questions, subjects, or problems which can create a difference of opinion. They can include issues which may have political, social, environmental, or personal impacts on pupils and/or the wider community: locally, nationally or internationally. Often they have no easy answer, in part, because solutions may be based on an individual's personal values and beliefs.

- 1. The issues discussed must be relevant to the curriculum and be part of a planned educational program.
- 2. Students must have free access to appropriate materials and information for analysis and evaluation of the issues.
- 3. The teacher must encourage students to consider and discuss a variety of viewpoints.
- 4. The topic and materials used must be within the range, knowledge, maturity, and competence of the students.
- 5. The teacher must inform parents and the building principal before discussing sensitive or controversial issues.
- 6. The teacher must keep detailed, documentary evidence to prove that both sides and/or all facts available were presented.
- 7. Teachers must refrain from advocating partisan causes, sectarian religious views, or selfish propaganda of any kind through any classroom or a school device. However, a teacher shall not be prohibited from

expressing a personal opinion as long as the student is encouraged to reach his/her own decision independently.

Teachers	who are	unsure	of their ob	ligations (under this	policy	must confer
with their	principal	prior to	discussing	controver	rsial issues	in the	classroom.

6015 Summer School

The school district may conduct a summer school program to provide additional educational opportunities for students who need remedial instruction and/or to enrich students' educational experiences. Students who successfully complete classes offered through the district's summer school program will earn credit toward high school graduation. Students will be allowed to substitute a summer-school grade for a failing grade earned during the regular school year. Students who take summer school courses to replace a passing grade may use the summer school course to advance their class rank.

6016 Homebound and Off-Campus Instruction

The school district may provide a student with instruction in his or her home or other off-campus location under the following circumstances:

- if the student's IEP or 504 team determines that homebound instruction is appropriate;
- if the student is physically or mentally ill or injured and unable to attend regular classes and the superintendent or his/her designee had determined that a program of off-campus instruction is appropriate, after conferring with the student's parents, teacher(s) and/or physician; or
- under other circumstances which the superintendent deems to be appropriate.

Homebound and off-campus instruction may include a variety of inperson and distance learning services, as determined appropriate by the superintendent or relevant educational team. The superintendent or relevant educational team shall periodically review individual offcampus instructional programs and shall only continue them as long as they are educationally appropriate.

6017 Homework

Homework consists of assignments made by teachers that students must complete during non-class time. Homework is intended to ensure student learning of certain concepts and/or skills found in the written and taught curriculum.

Teachers are encouraged to assign homework and must use their professional judgment in determining the length, difficulty, and student readiness to proceed with homework assignments.

ALICAP Inspection Report

Member School District: Overton Public Schools

Date of Inspection: April 27, 2023

NASB Loss Prevention Consultant: Ken Navratil Key person(s) met with: Mark Aten, Superintendent

Phone Number: 402-987-2424

Email: mark.aten@overtoneagles.org

"Experience Modifier" and worker injury history:

Your 2022-2023 "Experience Modifier" is 1.03. Last year it was 1.05 and the year before that it was 1.07.

What's New:

- (1) ALICAP has a new website/portal/platform that is available to you to view all things ALICAP. Your district's Coverage Memo, Auto ID Cards, SafeSchools Training Status, Claims counts/dollars all in one site.
- (2) ALICAP's Claims TPA Sedgwick is providing a Work Comp Claims Nurse's Line. If any employee gets hurt at work, he or she (along with their supervisor) can call the nurse's line for assistance. The phone number is 1-855-364-9865.
- (3) Are you aware that Homeland Security offers Cyber screenings, vulnerability assessments, and penetration testing for schools FOR FREE? If you are interested, you can contact Nic Brand at Nicholas.brand@cisa.dhs.gov

Regular Administration:

ALICAP reminds members to continue to work with your IT Director and/or ESU to implement the "Five Critical Controls" necessary to qualify for Ransomware coverage. You school district has not achieved 'Qualified' status yet. Keep working at it.

(If you need more information on how to obtain 'adequate controls' you can visit)

www.cybridgepro.com or contact:

OR

See end of this report for a reprint of February 2022 'Risk Alert' entitled "CYBER AND RANDSOMWARE"

The school district is complying with the Title IX regulations concerning sexual harassment which went became effective on August 14, 2020. The school district has identified their coordinator and investigator. The entire staff has been informed of the new requirements.

Employee and student orientation efforts address sexual abuse, sexual harassment, and appropriate communication via social media for staff and students.

Job descriptions are reviewed annually and define 'lifting requirements' where appropriate.

The school district conducts and documents all required drills:

- (1) Fire drills are conducted once a month with one additional drill the first 30 days of school;
- (2) Tornado drills are conducted during the first two weeks of school and once in March; and
- (3) Bus evacuation drills are conducted once during the first month of school and once in January.

The school district has adopted the "I Love You Guys" standard response protocol recommended by the Nebraska Department of Education.

Local law enforcement and fire department are familiar with the school building(s).

The school fire alarm system is connected to a security system that will contact 911.

We recommend that school personnel conduct WEEKLY inspections of the playground(s) and document each inspection. In particular, maintain the manufacturer's recommended depth of surface material under the playground equipment.

We recommend that school administrators and maintenance personnel conduct regular monthly inspections of the buildings and grounds. Document each inspection.

Cables and belts supporting the basketball baskets in the gym should be inspected every year. (The warranty is probably guaranteed for 10 years.)

If your district still utilizes MSDS sheets, you should consider the 'Safety Data Sheets' program, where these previous MSDS documents can be housed online. It is FREE to all ALICAP members. If interested, call Megan Boldt (1-800-422-4572).

Is your school district participating in 'High-Risk Activities'? Below is a list of activities that are not recommended (not limited to this list):

- 'Track and Field Day' for students and staff;
- 'Community Service' activities arranged by the school;
- FFA 'Student Employment Day Sale' as a fund raiser;
- Climbing walls
- Rodeo or Roping
- Trampolines
- Climbing Ropes
- Boating, Rafting or Float Trips
- Bike Races
- Dunk Tanks
- Hayrides or Tractor-Trailer Rides
- Skateboarding, Rollerblading, Ice Skating, or Roller Skating
- Horseback Riding
- Fairs or Carnivals
- Bonfires
- Fire Baton Twirling
- Mechanical Bulls
- Archery

Trap League

If anyone has questions or concerns regarding these activities or other possible 'High-Risk Activities', please feel free to contact the ALICAP office. 'High-Risk Activities' are not limited to the activities listed above.

Safety Committee(s) & Safety Training:

The Overton School District has a safety committee that meets quarterly. There are two sets of regulations that guide your safety committee(s). We recommend that your safety committee has separate agendas for each meeting.

- (1) The Nebraska Department of Education Rule 10 requires school districts to have a 'Safety and Security Committee'. This committee is composed of administrators, teachers, staff, parents, and students. The committee is required to meet at least once a year. The focus of this committee is to develop a 'Safety and Security Plan' for their school district to properly respond to a crisis or emergency. Rule 10 also requires a school district to bring in an outside person to conduct an annual safety review and submit a written report to the superintendent.
- (2) The state and federal worker safety laws are codified in Nebraska Statute 48-443. This law requires school districts to have a 'Labor Committee' that has representatives from each work department and meets quarterly. Keep documentation of the meetings for at least three years. The focus of this committee is on the 'day-to-day safety' of the workers and students.

All school employees that have contact with students have taken the Nebraska Department of Education required suicide awareness/prevention training.

All coaches and extra-duty sponsors have taken the 'concussion protocol' and 'heat acclimation' training prior to the start of the fall sports season.

Monthly 'Risk Alerts' from ALICAP are forwarded to all school employees.

The Overton district did not take advantage of the "SafeSchools" online safety training videos from ALICAP. We recommend including "Slips, Trips, and Falls" and "Lifting: Back and Shoulder Injuries" to your rotation of safety trainings. We also recommend the trainings on "Grooming" and "Boundaries."

Exterior Grounds:

- (1) Football Field/Athletic Field
 - a. The football field/athletic field appears in good condition.
 - b. Press box appears in good condition.
- (2) Playground(s)
 - a. The playground equipment is older and showing its age. Watch slides for cracks.
 - b. The fencing around the playground appears in good condition
 - c. A program for weekly inspection of the playground site should be in place
 - d. On the big blue slide, there is a large crack of the hard plastic towards the bottom of the slide. This part of the slide should be replaced.

e. On the medium size slide, the concrete base is exposed and should be covered with more pea gravel. It is important to maintain the manufacturer's recommended depth of surface material under the slides and swings.

(3) Sidewalks

a. We recommend that each year you replace portions of sidewalks that are deteriorating in order to stay ahead of any problem areas.

General Interior of the School Building:

The school building has a controlled entry system (buzz-in with camera ID).

The school building has multiple surveillance cameras and recording equipment.

The exterior doors are numbered.

The fire alarm system is inspected twice a year.

The fire alarm system is connected to the local fire department.

All fire extinguishers are inspected annually by a qualified person.

The exits and hallways were not blocked or obstructed.

All exit lights appear to be in working condition.

Emergency lights appear to be in working condition and should be tested monthly (fire code).

Tornado shelters should be identified with the proper signage.

There is no more than one locking or latching device on a door.

Classrooms & Offices:

The classrooms were well organized. Seating arrangement allows for all students to exit easily.

The fire exit routes and the route to the tornado shelter(s) are posted in the classrooms and offices.

Tornado shelters are identified with proper signage.

There were no electrical cords on the classroom floors or in the offices that would be considered a tripping hazard.

The gym, weight room, and P.E. areas appear free of unnecessary hazards.

The concession stand has a fire extinguisher.

Art classroom – OK. The Art classroom was well organized with materials and projects properly stored. The kiln is in a separate room and properly vented (fire code).

Band/Vocal Music room – OK. Materials and instruments were stored in shelves or around the perimeter.

Family and Consumer Science - OK.

In the high school Science classroom, there is an eye-wash station, fire extinguisher, fire blanket, and first aid kit. There is an easily located gas shut-off valve. The electrical outlets are properly grounded. The corrosive acids are stored in an approved lockable composite material cabinet and identified with proper signage. Flammable chemicals are stored in a lockable metal cabinet and identified with proper signage.

In the Woods/Metals work area, the power tools are properly grounded and the electrical cords are not frayed. The manufacturer's guards are in place. There is a fire extinguisher and eye-wash station. The computer lab is an interior room that should have emergency lights. The ventilation system above the welding bays is old and antiquated. You may want to consider a better system.

Mechanical/Storage/Kitchen:

The boiler system has been inspected and the current inspection certificate is posted in the boiler room. The boiler system has an emergency shut-off. There is a fire extinguisher in the boiler room. There is emergency lighting.

The storage rooms need better organization. In particular, the football gear storage room and the basement storage area need better organization. Try to add more 'shelving' whenever possible to keep things off the floor. Items on the floor become tripping hazards.

The kitchen is a large, well-organized area. There is an approved hood system and hood extinguishing system that is inspected annually. I did not see any standing water or tripping hazards. The food storage area is well-organized. The freezer has a leak that forms an ice rink.

The stage has 9-inch floor tile that contains asbestos. Watch for cracking and chipping.

Recommendations:

- 1. Your district has not yet achieved 'Qualified' status for cyber security renewal. Keep working to achieve the 'Five Critical Controls.'
- 2. If your district still utilizes the MSDS Sheets, you should consider the 'Safety Data Sheets' program, where these previous MSDS documents can be housed online. It is FREE to all ALICAP members. If interested, call Megan Boldt at 1-800-422-4572.
- 3. I recommend greater use of the "SafeSchools" safety training videos from ALICAP. In particular, the trainings on "Slips, Trips, and Falls" and "Lifting: Back and Shoulder Injuries" are very good. We also recommend the trainings on "Boundaries" and "Grooming."
- 4. The playground equipment is older. The big blue slide has a large crack towards the bottom of the slide and should be replaced. The medium size slide has a concrete base that is exposed. More pea gravel is needed to cover the concrete base.

- 5. It is also important to maintain the manufacturer's recommended depth of surface material under the swings and slides.
- 6. In the kitchen, there is standing water (ice) in the freezer that could be a slipping hazard.
- 7. The stage has 9-inch floor tile that contains asbestos. Watch for cracking and chipping.
- 8. In the Metals/Welding area, the ventilation system above the welding bays (fan in the wall) is old and antiquated. You may want to consider a better system.
- 9. We recommend that each year you replace deteriorating concrete sidewalks stay ahead of any problems
- 10. We recommend that you add shelving to your storage areas whenever possible to keep things off the floor. Items on the floor become tripping hazards. The football gear storage room and the basement storage areas are in great need of better organization.

TOPIC: CYBER AND RANDSOMWARE

RANDSOMWARE AND CRITICAL CONTROLS

It is no surprise to report that Cyber Insurance and Ransomware attacks are on the rise and the outlook for 2022 and beyond reflects more of the same. ALICAP has experienced the rise in frequency and severity of cyber claims and want to remind members they are a target for bad actors.

Our February 2022 "Risk Alert" reminds ALICAP members to continue to work with their IT Directors and/or ESU to implement the "Five Critical Controls" necessary to qualify for Ransomware Coverage and reduce the Cyber Security deductible from \$75,000 to \$1,000.

To qualify, we need to hear that you have the following MFA (Multi-Factor Authentication) settings enabled and that back-up files are disconnected and inaccessible from your general network.

Are advanced threat protection settings enabled for all email users?

These settings within a school's system, especially email as relates to attachments and imbedded links, are a great tool to prevent hackers from successfully tricking internal users into executing malicious codes such as ransomware. Ideally these settings prevent the content from coming into the system. If it does come in, it also puts the content in a 'sandbox' to be able to safely detonate the code prior to approving or removing from the environment.

Are multi-factor authentication setting enabled for access to privileged accounts or files?

Given the sensitivity of such accounts which commonly have access to finance systems; other systems with PII; back-ups, is a critical exposure point.

Are multi-factor authentication settings enabled for access to back-up files?

Second access credentials and MFA are critical security measures to prevent ransomware from further infecting the back-ups as well. As per the above, integrity of the back-up files is critical to preventing a need to pay a ransom.

Are back-up files disconnected and inaccessible from your organization's general network?

A common reference to this is 3-2-1 back-ups or commonly called "Air Gapping". This practice greatly reduces, if not eliminates, the need to pay a ransom if the systems are compromised. It also provides a quick method to restore your systems with confidence.

MFA ENABLED FOR ALL EMAIL USERS:

Considering the complexities of requiring younger students who may or may not have a second device to verify identify, ALICAP has received approval for the following alternative controls:

- 1. Student email environments are isolated from other business operations environments of the school.
- 2. Student email accounts cannot receive any email from outside the organization.
- 3. If student emails cannot be secured with MFA are those email accounts needed/can they be deactivated?
- 4. Any other information or details explaining how a ransomware event on a student email environment cannot spread to the rest of the organizations' environment or back-ups.
