School Happenings: It is that time of year again for testing. You might notice on the calendar that on March 16<sup>th</sup>, the NSCAS (state testing) window opens. This is the statewide assessment that all students grades 3-8 will be taking. The following subject areas are tested: Reading, Math, and Science. The Juniors will be taking the ACT on March 24<sup>th</sup> as part of the statewide ACT testing for all Juniors. Student performance is vital on these assessments as we are compared with all other schools and students across the State. Please ensure that your students are well prepared during these testing periods with a good nights rest and balanced breakfast. The teachers have done a wonderful job providing our students with the information necessary to be successful on these assessments. Thank you for giving your best effort on the assessments.

Educationally yours,

# CIP Updates

Continuous Improvement Process

Overtone Public Schools

## JANUARY 2020

### School CIP Goals

- All students will improve reading skills in the area of main idea and supporting details.
- All students will improve math number sense.

Through analyzing student learning, perceptual, school process, and demographic data, two academic areas were selected. Scores from The MAP tests indicated the scores in these concepts were lower compared to other strands.

### PERCEPTION SURVEYS

Teachers reviewed data from the survey given to students, staff, and parents in October. The number of responses from the parent survey increased. The information collected was analyzed for strengths, challenges, and implications. The data and discussions help the team make decisions about the future.

**¡Hola from the Spanish Department!**

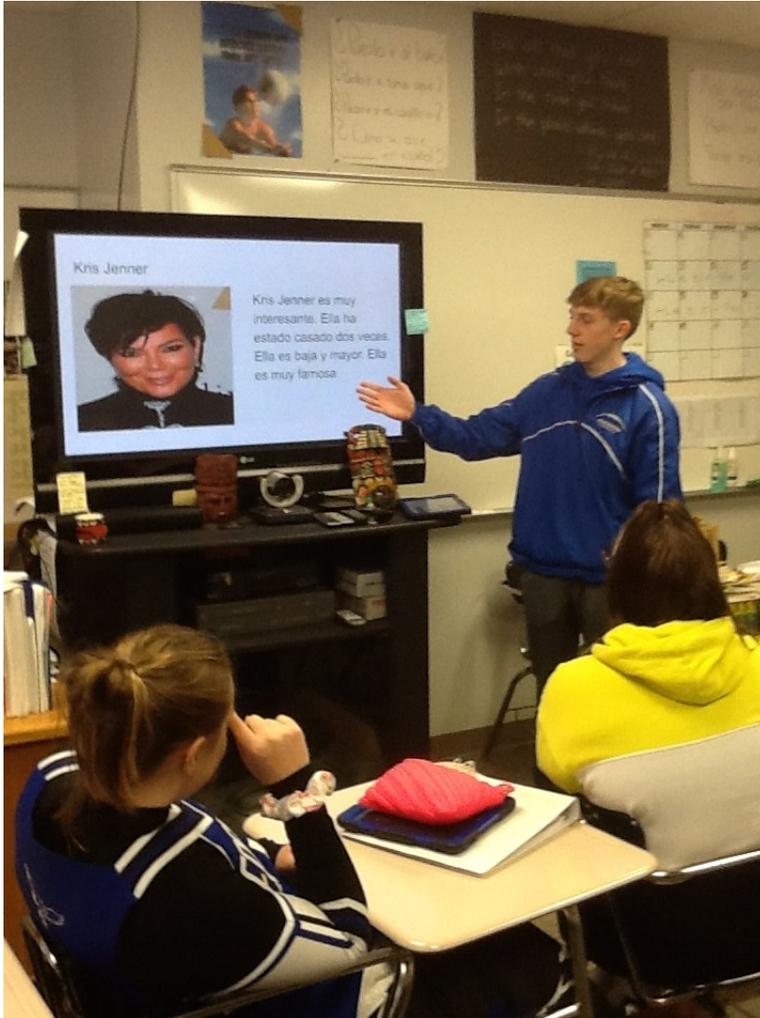

As we began our second semester of Spanish classes we practiced presentation skills. Spanish 1 students had the opportunity to design their dream room and to “show and tell” their classmates all the details. Yes, it did cause a few cases of nervousness, but that helps to prepare for future occasions when they may be able to use their Spanish in a real situation. It was a great demonstration of using (and understanding) the vocabulary we had been learning.

Our posters are on display in our room. See if your student can point out their handiwork!

Spanish 2 had their own opportunity to present before the class. Their project centered around the family vocabulary and description words we have been learning. They chose six members of their family (real or imaginary) to describe and to show in digital format. Everyone did a great job and we enjoyed a novel way of using our growing Spanish knowledge.

Ask your student to show you their presentation if you did not get a chance to see it at the Parent-Teacher conference.

One last news item: This year we will be trying a change with the National Spanish Exam that many of you know we have done for many years. We have offered students the choice as to whether they would like to participate or not. Those who do not do the National Exam will be doing a digital assessment offered by the same company. I am looking forward to comparing the output and benefits of each.

It has been a great year and we look forward to finishing strong.

Sra. Roos
